

- Software Developer specializing in Java, Spring Boot, and Full-Stack Development.
- Engineered and Delivered scalable applications using Java, FastAPI, and React.js, building secure, high-performance systems.
- Developed 10+ RESTful APIs with JWT authentication and optimized MySQL/PostgreSQL databases for real-time applications.

EXPERIENCE

- **BeyonCloud Tech Solutions LLP**
Trainee Associate
 - **Developed Delivered Backend Services:** Accomplished scalable backend functionality as measured by successful **CRUD** operations and workflow execution by developing **RESTful APIs** using **Python (FastAPI)** for onboarding systems.
 - **Engineered Database Integration:** Accomplished efficient data handling as measured by seamless user onboarding data storage and retrieval by designing and implementing PostgreSQL integration using SQLAlchemy.
 - **Executed API-Frontend Integration:** Accomplished smooth user data submission and tracking as measured by real-time workflow updates by integrating backend services with Next.js frontend applications.
 - **Optimized Code Quality Maintainability:** Accomplished improved code readability and reduced bugs as measured by consistent code reviews and stable deployments by applying OOP principles and clean code practices.

Chennai, Tamil Nadu, India (Remote)
Aug 2025 – Dec 2025

SKILLS SUMMARY

- **Languages:** Java (Core, OOPs, exception handling, collections, streams, Java 8 features), JavaScript (ES6, DOM manipulation, event handling), HTML5, CSS3, SQL (DDL, DML, joins, subqueries)
- **Frameworks & Libraries:** Spring Boot (REST API, Spring Security, JPA, Thymeleaf), React.js (Hooks, Context API, Routing, Axios, React Router)
- **Tools & IDEs:** Git & GitHub (version control and collaboration), Postman (REST API testing), Eclipse, VS Code, Spring Tool Suite (STS)
- **Databases:** MySQL (relational schema, indexing, constraints), Oracle SQL (PL/SQL basics, SQL Developer usage)
- **Key Concepts:** OOP, RESTful APIs, Java 8 (streams, lambdas), basic DSA (arrays, strings, recursion)

PROJECTS

- **NLP-Based Web Content Analyzer (Spring Boot, React.js, NLP, Jsoup):**
 - Reduced manual reading effort by 40% by engineering a full-stack application that automated webpage summarization using Spring Boot and React.js.
 - Processed and analyzed 1000+ words per request by implementing web scraping with Jsoup and applying NLP techniques like tokenization and keyword extraction.
 - Improved content understanding speed by 35% by optimizing keyword insights, reading-time estimation, and extractive summaries.
 - Delivered real-time analysis with 2s response time by executing seamless REST API integration between backend and frontend.
- **User Authentication System (Spring Boot, React.js, JWT, MySQL):**
 - Secured user sessions for 100+ test users by engineering a JWT-based authentication system using Spring Security.
 - Ensured 100% protected route access control by implementing role-based authorization workflows.
 - Enhanced data security compliance by optimizing password protection using BCrypt hashing.

EDUCATION

- **Mailam Engineering College**
B.E. in Computer Science and Engineering; CGPA: 8.7 / 10

Tamil Nadu, India
2020 – 2024

CERTIFICATIONS

- **Core Java Internship:** Ezhil Learning Platform
Completed a 4-week internship focused on Core Java, including OOP, collections, exception handling, and problem-solving. Implemented hands-on mini-projects to apply Java concepts in real-world scenarios. Mar 2026
- **Full Stack Development:** CodeBuilders
- **Software Engineer Intern:** HackerRank
- **Java Basics:** HackerRank
- **CCNAv7: Introduction to Networks:** Cisco
- **Virtual Experience Program:** Accenture Forage
- **Full Stack Bootcamp:** Skill Lync
